

## DELIVERING A FAIR & SUSTAINABLE PUBLISHING INFRASTRUCTURE FOR SCOTLAND'S RESEARCH COMMUNITY

[www.sup.ac.uk](http://www.sup.ac.uk)

### Fully Open Access

SUP titles will be freely available to a global audience via our online platform, complying with funder mandates and increasing the reach of research. We also offer a print-on-demand service at a fair price, and pay royalties to authors.

### Not-for-profit

SUP provides a cost-effective and ethical route to publishing. Any surpluses from our low-cost book production charge will be reinvested in the Press for the benefit of Scotland's research community.

### High Quality

SUP delivers a full publishing service, covering copy-editing, design and typesetting, and global dissemination. All proposals go through a rigorous peer review process managed by an Editorial Board drawn from participating institutions.

## Support SUP

- 🎯 **Publish with us or join our Peer Review Network:**  
<https://bit.ly/3F82Eh5>
- 🎯 **Share information about SUP across your networks**
- 🎯 **Engage with Open Access initiatives led by your library**
- 🎯 **Help us create a fairer and more equitable publishing ecosystem!**
